

## MESSAGE TO STUDENTS

Dear Students,

As we are on the verge of our summer vacation, our prime concern should be to keep ourselves safe and healthy not neglecting the required academic activities. In this unprecedented Covid-19 pandemic, we need to curtail ourselves from many of our usual and regular practices. We have already trained ourselves to remain at home and respond to the online class conducted by our teachers. I hope you have really made benefits from the online classes and study materials made available to you through the school ERP and Class What's App Groups. Your flexibility and persistence definitely reveal your commitment to adjust yourselves to any situation that is inevitable. It is reiterated that all of us should abide by the regulations and directions put forward by the government and the health authorities from time to time. It is indeed patriotic to protect our Motherland by keeping ourselves and our fellow beings safe from the monstrous clutches of Corona virus. We should make sure that we follow in letter and spirit all the instructions and guidelines instituted by the governing bodies. Social distancing, personal and community cleanliness together with entire sanitization can help us to a great extent to combat the spread of Covid-19. During this summer vacation, you are reminded to continue your studies and academic activities in order to equip yourselves for meeting the challenges of forthcoming days. Teachers have already given you some simple Home Assignments/Projects which can empower and enhance your learning skills. Ensure that you complete all the works properly so that you may keep yourselves ready for continuing the online/regular class after the summer vacation as and when intimated by the competent authorities. I wish you all a fruitful, joyful and healthy Summer Vacation.

Stay Home, Stay Safe!

Fr. Davis  
School Manager
